SANTIAGO CAPITAL CITY

Santiago, with its modernity, green spaces, and Andes Mountains charm, is an up-and-coming destination for living, working, studying, and investing. Recognized as the best city in South America, it embodies quality living and urban progress in today's world.

BEST MEAT FROM CHILE TO THE WORLD

The south of Chile has a natural and privileged environment; rivers, lakes, valleys and mountains, all with rainy and green prairies giving an ideal ecosystem for the raising and fattening of cattle.

CHILE, **AUTHENTIC SANITARY ISLAND**

Chile across the country presents a great weather diversity; in the north the driest desert in the world, and to the south ice zones, to east the Andes mountains, and to the west the Pacific Ocean. This geography transforms the country in an **authentic sanitary island.**
